# The Transformational System as Enneagram

Dr. Anthony Hodgson

"Only what a man is able to put into the enneagram does he actually *know*; that is, understand. What he cannot put into the enneagram he does not understand."

G.I.Gurdjieff

## Part A Beyond Linear Time

Transformations require action beyond  
linear time.

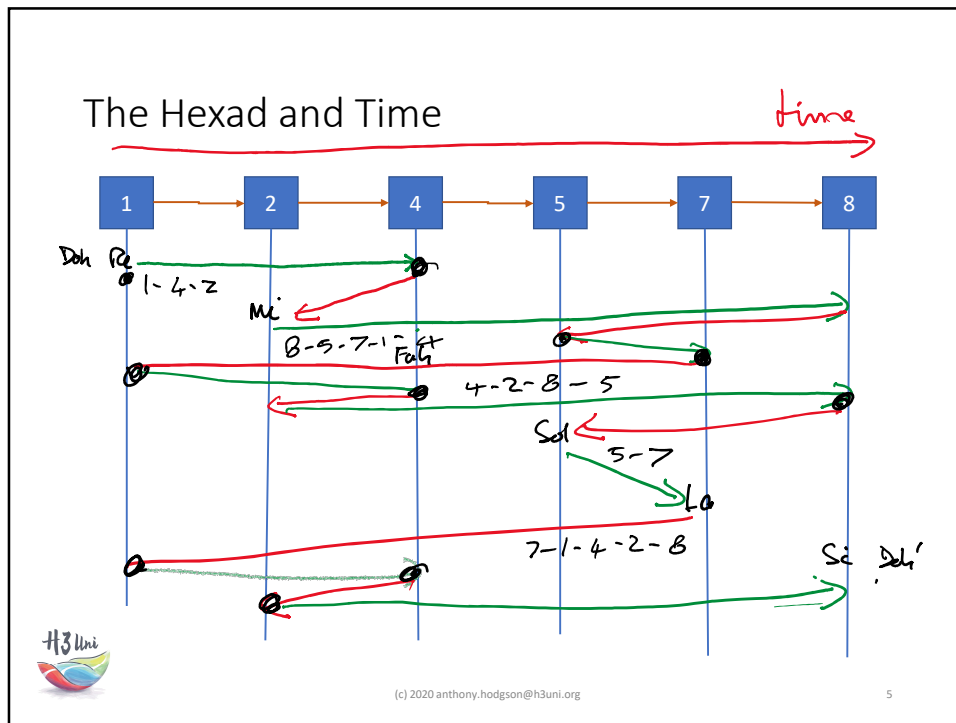

To understand the meaning of these lines we need to  
shift our assumptions about the nature of time and  
interconnection.

## The Cosmic Continuum

Space-Chronos  
Space-Aionios  
Space-Hyparxis

are  
**contiguous**  
and  
**tangled**

Dimensions	Cosmic Continuum	Qualities
Space Chronos	SC Continuum	Causal sequence of local events – common time
Space Aionios	SA Continuum	Latent patterns in space – implicate order - potential
Space Hyparxis	SH Continuum	Local realization of the individual and particular
Space Henosos	SU Continuum	Unity beyond limitation – super-implicate order
